WAYS TO HIRE

4

CLEANING & FACILITIES 13 ROLES

The right people for every cleaning environment, from routine site work to hotels, healthcare and cleanrooms.

Cleaning operative	Routine site cleaning, washrooms, workplaces and communal areas.
Mobile cleaner / relief worker	Multiple sites, open shifts and temporary cover.
Housekeeping operative	Hotel rooms, holiday accommodation, public areas and changeover days.
Hospitality / facilities operative	Visible cleaning, guest contact and light facilities duties.
Healthcare & hygiene cleaner	Healthcare locations where protocols, discretion and hygiene are essential.
Food / high-care cleaner	Production environments with strict hygiene and documentation rules.
Cleanroom cleaner	Controlled environments, subject to suitable experience and instruction.
Transport / high-traffic cleaner	Stations, vehicles, terminals, airports and busy public locations.
Specialist cleaner	Deep cleaning, floors, glazing/facades, construction cleaning and periodic work.
Event cleaner	Public opening hours, changeovers and rapid handover after events.
Post-construction cleaner	Dust-free, clean and ready-for-use handover of new-build and refurbishment projects.
Construction clean-up / final-clean operative	Pre-cleaning, light construction waste and the final clean before handover.
Working supervisor	Task allocation, progress monitoring and daily coordination on site.

INDUSTRIAL CLEANING & SAFETY 16 ROLES

Experienced people for work where safety matters: installations, tanks, high-pressure work and confined spaces.

Industrial cleaner	Installations, machinery, tanks, production areas and technical spaces.
Industrial cleaning assistant	Preparation, material support, screening-off and safe clean-up work.
Industrial housekeeping / site support	A clean and safe plant, factory, shutdown facility or production environment.
Shutdown / turnaround worker	Temporary reinforcement during maintenance shutdowns and turnarounds.
Hogedrukspuiter (HDS) / Hogedrukoperator (HDO)	High-pressure work using the method and SIR qualification required for the assignment.
Industrial cleaning machine operator	Equipment operation; HDS-M or HDO-M agreed specifically in advance for SIR high-pressure work.

Pressure/Vacuum Assistant (DVH)	SIR-trained to assist the Pressure/Vacuum Operator safely.
Pressure/Vacuum Operator (DVM)	Operating the unit, work arrangements and execution around the pressure/vacuum vehicle.
Industrial blaster / grit blaster	Abrasive blasting of steel and installations; also called a sandblaster.
Tank / unit cleaner	Tanks, units, containers, vessels and industrial storage environments.
Cleaner using independent respiratory protection	Work with breathing apparatus or an airline system, matched to risk and qualification.
Adembescherming C (AB-C)	Official SIR qualification for specialist level-C work; demonstrable qualifications required.
Industrial fire marshal	Monitors maintenance, hot work and fire-risk situations.
Confined space attendant	Checks working conditions and monitors people working in confined spaces.
Gas analyst	Carries out and records gas measurements to help validate the working environment.
Decontamination operative	Controlled cleaning of contaminated components and zones.

OFFICIAL SIR PROFILES 10 ROLES

The right qualification for the technique and risk category. Dutch SIR names and codes are deliberately retained.

Hogedrukspuiter (HDS) ON REQUEST	High-pressure jetting under the applicable SIR guideline and agreed work method.
Hogedrukoperator (HDO) ON REQUEST	Manual or mechanised high-pressure work within the applicable SIR requirements.
Hogedrukspuiter Machinist (HDS-M) ON REQUEST	Machine-operator role on work corresponding to the HDS-M qualification.
Hogedrukoperator Machinist (HDO-M) ON REQUEST	Machine-operator role on work corresponding to the HDO-M qualification.
Toeziethouder Hogedruk (THD) ON REQUEST	Supervision of high-pressure work, work method, team and agreed safety conditions.
Toeziethouder Drukvacuüm (TDV) ON REQUEST	Supervision of pressure/vacuum work under the applicable task and project requirements.
Adembescherming B met gaspak (ABB-G) ON REQUEST	Gas-suit work within the relevant SIR risk category and admission requirements.
Toeziethouder Adembescherming (TAB) ON REQUEST	Supervision of work using independent respiratory protection.

Chemisch Technisch Operator (CTO)**ON REQUEST**

Chemical-technical cleaning under the applicable SIR guideline.

Toezichthouder Chemisch Technisch (TCT)**ON REQUEST**

Supervision of chemical-technical work and agreed control measures.

CATALYST, SHUTDOWN & TECHNICAL PROJECTS 10 ROLES

Specialist capacity for complex industrial projects. These are additional industrial services, not routine cleaning roles.

Catalyst / Reactor Technician**ON REQUEST**

Catalyst unloading, cleaning, inspection and reloading of reactors.

Dense Loading Technician**ON REQUEST**

Controlled, even loading of catalyst material to project method and process requirements.

Supplied-Air Specialist / Gas-Suit Worker**ON REQUEST**

Specialist work with independent breathing air or a gas-tight suit.

Industrial Cleaning Superintendent**ON REQUEST**

Task allocation, permits, LMRA, safety, progress and customer coordination.

Work Preparer / Shutdown Planner**ON REQUEST**

Workforce, equipment and work planning, work packs, access and progress.

Turnaround / Project Coordinator**ON REQUEST**

Coordinates customer, execution team, planning function and safety organisation.

Tank Maintenance Operative / Industrial Fitter**ON REQUEST**

Dismantling, assembly and mechanical support around tanks and cleaning projects.

Flange Fitter / Pipefitter**ON REQUEST**

Mechanical project support with appropriate training, experience and work arrangements.

Industrial Painter / Coating Operative**ON REQUEST**

Preservation and coating after preparation or blasting.

Working Foreman - Specialist Crew**ON REQUEST**

Daily supervision of cleaners, operators, blasters or catalyst workers on site.

On request means the role is supplied subject to confirmation. **Qualification required** means the role calls for a certificate, and a certificate does not automatically grant authority.

FOUR WAYS TO WORK WITH US

01

Temporary staffing

Flexible capacity aligned with the assignment and schedule.

Peaks, absence, flexible shifts and short-term deployment.

02

Secondment

Skilled people for an agreed period and scope.

Longer assignments, projects and continuity.

03

Recruitment & selection

Targeted recruitment for a sustainable permanent match.

The candidate joins the employer directly.

04

Project teams & flex pools

A scalable deployment structure with planning and quality control.

Multiple roles, sites, shifts or recurring demand.

REQUEST STAFF

Tell us what you need and the Workforce team will contact you to agree the details.
