## TRAFFIC CONTROL 4 ROLES

Roles for traffic flow and visitor routing. The legal role determines which directions a person may give.

|                                            |                                                                                         |
|--------------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Professional traffic controller</b>     | Controls traffic on public roads with required exam, appointment and site instruction.  |
| <b>Event traffic controller</b>            | Deployed for a specific event after the required instruction and appointment procedure. |
| <b>Parking steward</b>                     | Supports arrival, parking and routing without performing unauthorised traffic control.  |
| <b>Traffic-controller team coordinator</b> | Plans posts, briefs the team and controls staffing and reporting.                       |

## TEMPORARY TRAFFIC MANAGEMENT 4 ROLES

Roles for work-zone layout and equipment. This crew installs and removes the work zone under the delivery plan.

|                                         |                                                                               |
|-----------------------------------------|-------------------------------------------------------------------------------|
| <b>Traffic management operative</b>     | Delivers, installs, checks, changes and removes temporary traffic management. |
| <b>Traffic management driver</b>        | Transports equipment and supports installation and removal.                   |
| <b>Impact protection vehicle driver</b> | Operates an impact protection vehicle under the work plan and procedures.     |
| <b>Traffic signs installer</b>          | Installs, replaces and maintains temporary or permanent signs.                |

## PREPARATION & LEADERSHIP 4 ROLES

Control of planning and delivery, from work preparation and CAD to project coordination.

|                                                                    |                                                                               |
|--------------------------------------------------------------------|-------------------------------------------------------------------------------|
| <b>Working foreman - traffic management</b><br><b>ON REQUEST</b>   | Directs the crew and controls plan, equipment, safety and handover.           |
| <b>Traffic management works planner</b><br><b>ON REQUEST</b>       | Prepares measures, equipment, schedule, permits and site delivery.            |
| <b>Traffic management CAD technician</b><br><b>ON REQUEST</b>      | Develops temporary traffic plans and phases for the assignment and road type. |
| <b>Traffic management project coordinator</b><br><b>ON REQUEST</b> | Connects customer, planning, yard, delivery crews and traffic controllers.    |

**On request** means the role is supplied subject to confirmation. **Qualification required** means the role calls for a certificate, and a certificate does not automatically grant authority.

**01**

### **Temporary staffing**

Flexible capacity aligned with the assignment and schedule.

Peaks, absence, flexible shifts and short-term deployment.

**02**

### **Secondment**

Skilled people for an agreed period and scope.

Longer assignments, projects and continuity.

**03**

### **Recruitment & selection**

Targeted recruitment for a sustainable permanent match.

The candidate joins the employer directly.

**04**

### **Project teams & flex pools**

A scalable deployment structure with planning and quality control.

Multiple roles, sites, shifts or recurring demand.

## **REQUEST STAFF**

Tell us what you need and the Workforce team will contact you to agree the details.
