

SECTOR 09 OF 12

WASTE, RECYCLING & CIRCULARITY

Collection, sorting, processing, recycling, site work and circular operations, from kerbside to recovered material.

ROLES

18

GROUPS

3

WAYS TO HIRE

4

COLLECTION, RECYCLING CENTRES & ACCEPTANCE 6 ROLES

People who receive waste streams and keep them moving safely. Vehicle and material type are filters, not job titles.

Waste Loader	Supports collection routes and works safely around vehicles, traffic and the public.
Waste Management Operative	Collects waste, supports sorting and reuse and follows acceptance arrangements.
Recycling Centre Operative	Guides visitors, directs waste streams and keeps the site safe and orderly.
Waste Acceptance Officer	Checks incoming waste against acceptance criteria and blocks non-conforming loads.
Weighbridge Operative	Weighs vehicles, records data and guides drivers under site and administration rules.
Recycling Yard Operative	Moves, separates and consolidates materials across the recycling yard.

SORTING, RECYCLING & REUSE 5 ROLES

Shop-floor people who turn waste back into value. Material is a filter, not a new occupation.

Recycling Sorter	Separates materials manually or at a belt and removes contamination.
Recycling Operative	Performs processing, handling and checking tasks within a recycling operation.
Dismantling Operative	Dismantles products or equipment and separates parts for reuse or processing.
Reuse & Refurbishment Operative	Checks, cleans, sorts and restores products for a safe second-use cycle.
Recycling Quality Controller	Checks streams and recovered materials for composition, contamination and specification.

PLANT, PROCESSES & LEADERSHIP 7 ROLES

Control over equipment, site, planning and shift. Machine experience is task- and site-specific.

Recycling Plant Operator	Sets and monitors sorting, separation, crushing, shredding or baling equipment.
Waste Processing Operator	Monitors continuous or batch processes for waste, water, organics or energy recovery.
Wheel Loader Operator	Feeds plant, moves bulk streams and manages stockpiles and traffic routes.

Recycling Crane Operator	Sorts, loads and moves materials with a mobile crane and suitable grab.
Waste Collection Planner	Plans routes, vehicles, staffing and changes and coordinates delivery.
Working Recycling Foreperson	Works alongside the team and monitors safety, pace, quality and site order.
Waste & Recycling Team Leader	Leads a team or shift and monitors staffing, safety, progress and handover.

FOUR WAYS TO WORK WITH US

01 Temporary staffing Flexible capacity aligned with the assignment and schedule. Peaks, absence, flexible shifts and short-term deployment.	02 Secondment Skilled people for an agreed period and scope. Longer assignments, projects and continuity.	03 Recruitment & selection Targeted recruitment for a sustainable permanent match. The candidate joins the employer directly.	04 Project teams & flex pools A scalable deployment structure with planning and quality control. Multiple roles, sites, shifts or recurring demand.
