

SECTOR 04 OF 12

TECHNICAL, MAINTENANCE, PRODUCTION & ENGINEERING

Technicians and operators through preparation, engineering and project leadership, for breakdowns, installation, production and projects.

ROLES

24

GROUPS

6

WAYS TO HIRE

4

MAINTENANCE & SERVICE 3 ROLES

Maintenance, breakdowns, shutdowns, overhauls and field service.

Maintenance technician	Plant maintenance, preventive, corrective and overhaul.
Breakdown technician	Diagnosis, fault finding, repair and restart.
Service technician	Maintenance, repair, customer site and reporting.

MECHANICAL & MECHATRONICS 7 ROLES

Mechanical, machinery, assembly, metal, CNC and drive technology.

Mechanical technician	Drives, pumps, bearings and conveyors.
Mechatronics technician	Mechanical, electrical, controls and diagnostics.
Machine builder	Modules, assembly, alignment and drawings.
Assembly technician	Components, precision assembly, final build and test.
Commissioning technician	Testing, parameters, start-up and handover.
Welder	MIG/MAG, TIG, material, position and procedure.
CNC machinist	Turning, milling, programming and measurement.

ELECTRICAL & AUTOMATION 3 ROLES

Electrical, E&I, instrumentation, PLC, SCADA and robotics.

Electrician	Installations, machinery, panels and cabling.
E&I technician	Electrical, instrumentation, loops and faults.
Instrumentation technician	Sensors, transmitters, calibration and loops.

BUILDING SERVICES & ENERGY 2 ROLES

Refrigeration, air conditioning, heat pumps, heating and boilers. Regulated; certification is checked first.

Refrigeration & climate systems technician	Refrigeration, air conditioning, heat pumps and commissioning.
Heating & boiler technician	Boilers, heating, hot water and flue systems.

QUALIFICATION REQUIRED

QUALIFICATION REQUIRED

PRODUCTION & PROCESS 2 ROLES

Operators, production technology and shift-based operation of machines and processes.

Process operator	Process monitoring, adjustment, safety and shifts.
Machine operator	Setting, operating, changeovers and checks.

ENGINEERING & PROJECTS 7 ROLES

Work preparation, CAD, engineering, technical management and project leadership.

Work planner	Scope, materials, hours, drawings and work pack.
Maintenance planner	Work orders, capacity, materials and backlog.
Maintenance engineer	Strategy, analysis, optimisation and data.
Technical drafter	2D/3D, CAD, revisions and bills of material.
Technical project lead	Scope, team, schedule, budget and progress.
Mechanical engineer	Design, calculations, CAD and manufacturability.
Electrical engineer	Schematics, calculations, components and standards.

On request means the role is supplied subject to confirmation. **Qualification required** means the role calls for a certificate, and a certificate does not automatically grant authority.

FOUR WAYS TO WORK WITH US

01

Temporary staffing

Flexible capacity aligned with the assignment and schedule.

Peaks, absence, flexible shifts and short-term deployment.

02

Secondment

Skilled people for an agreed period and scope.

Longer assignments, projects and continuity.

03

Recruitment & selection

Targeted recruitment for a sustainable permanent match.

The candidate joins the employer directly.

04

Project teams & flex pools

A scalable deployment structure with planning and quality control.

Multiple roles, sites, shifts or recurring demand.

REQUEST STAFF

Tell us what you need and the Workforce team will contact you to agree the details.
