SERVICE

05

WHAT IT COVERS

Building envelope	Roof, wall, floor and cavity insulation; junction details; thermal bridges and airtightness.
Frames & glazing	Repair or replacement of frames, high-performance glazing and draught sealing.
Ventilation & indoor climate	Ventilation improvement, moisture/mould action after root-cause review, comfort and healthy air.
Building services	Heating, heat pumps, controls, PV and MEP systems through appropriate technical competence.
Portfolio delivery	Block, complex or portfolio programmes with phasing and occupied works.
Circularity	Retention, reuse, design for disassembly and bio-based materials where technically and commercially suitable.
Climate adaptation	Rainwater disconnection, water buffering, green/blue roofs, heat mitigation and nature-inclusive measures.
Performance	Measures tied to property objective, energy requirements, comfort, risk and maintenance strategy.

Qualified specialist. Carried out or supervised by a qualified specialist where required.

Energy-performance and permit requirements depend on the intervention. Scenario with expected effects; no guarantee.

BOOK A PROPERTY CHECK

Tell us what you need and the Renovation team will contact you to agree the details.
